SKILLS:

Programming Languages: Python (Pandas, Numpy, Seaborn, PySpark, Scikit-Learn, XGBoost), SQL
Databases: AWS, Microsoft SQL Server
Tools: Power BI, Jupyter Notebook, Git, Azure, Athena, Airflow, Snowflake
Others: Data Cleaning, Predictive Modeling, Feature Engineering, Data Visualization, KPI Analysis, Machine Learning

WORK EXPERIENCE:

- Coca Cola** Rio de Janeiro - RJ
Data Science Intern (July 2025 – Present)
- Developed SQL queries to extract and validate marketing datasets, increasing KPI accuracy and reliability by 5%.
 - Automated the update pipeline for over 80 Power BI dashboards, ensuring real-time data availability and reducing manual maintenance.
- Osprey Visa Consulting** Rio de Janeiro - RJ
Database and Automations Developer (April 2025 – August 2025)
- Built a centralized SQL database and automated repetitive workflows with Python, increasing data reliability and reducing manual effort.
- SANDECH Consultoria em Engenharia e Gestão LTDA** Rio de Janeiro - RJ
Commercial Analyst (December 2023 – May 2024)
- Created Power BI dashboards to track KPIs and sold over R\$1M in engineering services.
- CONPLEQ CONSULTORIA** Rio de Janeiro - RJ
Sales Consultant (July 2023 – April 2024)
- Developed a regression model with 83% accuracy to predict consumer behavior, boosting lead conversion by 20%.

PROJECTS:

- Kaggle Machine Learning Competition** (May 2025)
- Created a stacked ML model, using XGBoost, RandomForestRegressor, LightGBM and Gradient Boosting Regressor to predict calories expenciture. Reached top 38% of the leaderboard.

EDUCATION:

- Data Science** Expected 2026
Universidade Estácio de Sá
- Chemical Engineering** Expected 2027
Universidade do Estado do Rio de Janeiro (UERJ)
